

RISK WARNING

God Help Me (GHM) — SaaS Automated Trading Strategy Software for Cryptocurrency Futures

Version: 3.0 **Effective date:** July 1, 2026

1. NATURE OF RISK

Trading cryptocurrency futures with leverage is an activity of **extremely high risk**. The user may lose **100% (one hundred percent)** of the capital allocated to operations, including within minutes.

Leverage amplifies both gains and losses. A small adverse market movement can result in total liquidation of the position. Price variations in crypto assets are frequent, intense, and unpredictable.

The cryptocurrency market operates 24 hours a day, 7 days a week, and is subject to extreme volatility arising from factors such as regulation, cyberattacks, market manipulation, systemic failures, and macroeconomic events.

2. WHAT GHM IS NOT

God Help Me **is not**:

- Investment advisory or consulting.
- Securities brokerage or advice.
- Third-party asset management.
- An investment fund.
- A financial institution.
- A cryptocurrency exchange or broker.
- A guarantee of profit or capital preservation.

GHM is exclusively an **automated strategy tool** (SaaS software) accessed via Telegram bot. The decisions to use, configure, and operate with real capital are solely the user's responsibility. GHM does not make investment decisions on behalf of the user nor recommend specific allocations.

3. NO PROMISE OF RETURNS

GHM **does not promise, guarantee, or assure**:

- Positive returns.
- Minimum or maximum return.
- Capital preservation.
- Profit in any period (short, medium, or long term).

- Future performance consistent with past results.

Past results do not indicate future results. Backtests, simulations, demonstrations, and historical results presented in any medium (website, social media, marketing materials, dashboard) are purely illustrative and **do not constitute a guarantee of future performance**. Market conditions change constantly, and strategies that performed well in the past may generate losses in the future.

4. TECHNICAL RISKS

The use of GHM involves technical risks, including but not limited to:

- Internet connection failures on the user's end or infrastructure provider.
 - Unavailability of the exchange chosen by the user (Binance, Bybit, Bitget, Gate.io, OKX, or other supported exchange).
 - Delays or failures in order execution due to latency, network congestion, or API maintenance.
 - Bugs, errors, or unexpected software behaviour.
 - Failures of third-party APIs (Telegram, market data providers, LLM providers).
 - Security incidents, credential leaks, or unauthorized access to accounts.
 - Errors, inaccuracies, or hallucinations in AI-generated analyses.
 - Forced liquidations by the exchange due to inadequate risk parameters.
 - Slippage (difference between expected price and executed price).
-

5. MARKETING AND PAID ADVERTISING

GHM runs advertising campaigns on digital media platforms, including Meta Ads (Facebook/Instagram), Google Ads, and other social networks. It is important that the user understands:

1. **Commercial nature:** all content displayed in paid advertisements is of an exclusively commercial and promotional nature. Advertisements do not constitute investment recommendations, advice, or guidance.
2. **Illustrative results:** results, charts, percentages, or demonstrations presented in advertisements, sponsored posts, landing pages, or marketing materials are **purely illustrative** and refer to specific past periods. There is no guarantee that such results will be repeated in the future.
3. **No promise of gain:** no advertisement, video, testimonial, or promotional material from GHM constitutes a promise, guarantee, or assurance of financial gain.
4. **Informed decision:** the fact that the user arrived at GHM through an advertisement does not alter the nature of the service, its risks, or the liability limitations described in this Warning and in other legal documents.
5. **Compliance:** GHM's advertising campaigns seek compliance with the guidelines of CONAR (Brazilian National Council of Advertising Self-Regulation), PRO-

CON, FTC (Federal Trade Commission), and the advertising policies of the platforms used.

6. RECOMMENDATIONS

Before trading with real capital, the user should:

1. Extensively test the System in **simulated/dry-run** mode.
 2. Fully understand the chosen strategy and its parameters.
 3. Configure risk limits compatible with their profile and loss tolerance.
 4. Use **only capital they can afford to lose entirely** without compromising their livelihood or essential assets.
 5. Seek guidance from qualified professionals (financial advisors, accountants, lawyers) when necessary.
 6. Not invest borrowed money, emergency funds, or funds allocated to basic needs.
 7. Periodically monitor operations and adjust parameters as necessary.
 8. Stay informed about the cryptocurrency market and its risks.
-

7. ACCEPTANCE OF RISK

By using GHM, the user declares that:

1. They are aware of all risks described in this document.
 2. They voluntarily accept such risks.
 3. They have the financial capacity to bear potential losses.
 4. They understand that GHM is an automation tool and not a consulting or financial management service.
 5. They release GHM and its operators from liability for financial losses, lost profits, or any other direct or indirect damages arising from the use of the System.
 6. They acknowledge that advertisements or promotional materials they may have viewed do not alter the risk nature of the service.
-

8. GOVERNING LAW

This Risk Warning is governed by the laws of the Federative Republic of Brazil. For users in the European Union/EEA, mandatory consumer protection laws of the country of residence also apply, as well as the GDPR for data protection matters.
